Article Title:
Date:
Section:

Evaluation of style and content (choose an option)

Criteria	Poor	Fair	Good	Excellent
Title and summary. It is relevant and fits the content. The summary conveniently enunciates the objectives and the results.				
Article structure. Clarity in the text structure and organization.				
State of the art. An adequate analysis of the existing scientific production is carried out.				
Research Methodology. The methodological approach is consistent with the objectives and/or the formulated hypothesis and guarantees transparency.				
Results. They are significant; results are analyzed appropriately and are related to the objectives.				
Discussion and conclusion. The conclusions are relevant and match the objectives.				
Tables and graphics. They are significant and necessary and synthesize the results of the research.				
Bibliography. The sources are appropriate, representative, sufficient and updated.				
Writing Style. Appropriate language and scientific nature.				
Originality. The research is novel, consistent and contributes to the area of research.				
Relevance. It is a socially relevant problem and it is clearly defined.				

Classification of work (choose only one option)

Research article:

Work article:

Recommendation (choose only one option)

Opinion	Recommendation
Accepted	
Accepted with minor changes	
Accepted with major changes; it requires a 2nd evaluation	
Rejected	

Suggestions to the author / authors:

We would appreciate to specify the importance of the research and its significance, the major or minor problems encountered and that you consider should be modified or improved, or that may justify the non-publication thereof. The constructive criticism constitutes a great contribution for your colleagues. Revisions must be made in due time, so that authors could apply the evaluators' suggestions and improve their work.

IT IS CRUCIAL THAT YOU JUSTIFY THE PREVIOUS EVALUATION. IF THIS SECTION IS NOT COMPLETED, THE EVALUATION WILL BE CONSIDERED AS UNSENT.
